Subject: Link to OneDrive Folder for 'MA DEP Dissolved Oxygen'

Importance: High

Greetings Everyone,

The link below gives you access to the all the documents uploaded by Kim Groff for the MA DO Project. You can review, add questions, comments, edits to all documents. Comments/questions are due Sept 25. I'll see if we can get a few more days since we weren't able to access everything until now. So, please use this OneDrive folder to access the docs and provide your comments directly.

Thanks!
Jeanne
